DETAILED ACTION

Allowable Subject Matter

Claims 1-7 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The applicant's have a filed a certified translation of the foreign priority document, which overcomes all rejections relying on Obata *et al.* Furthermore, the applicant has amended claims 1 and 7 to further define the invention such that Ar1 and Ar2 are separately defined groups and are not connected, which overcomes all rejections based on JP 2003-012619. As such, there is no disclosure in the prior art that teaches a photoreceptor with the limitations recited in the applicant's independent claims 1 and 7. Therefore, the applicant's invention of claims 1-7 is allowable over the prior art.
